- **Front-end Technologies:** ReactJS, NextJS, React Native, jQuery, Tailwind CSS, HTML/CSS
- **Back-end Technologies:** NodeJS, ExpressJS, SQL, Firebase, MongoDB, Django, GraphQL, Flask
- **Development and Collaboration Tools:** NPM, Git, Docker, Jira, Expo Go, AWS, iOS, Figma, Stripe, Google Cloud Platform (GCP)
- **Spoken Languages:** Fluent English, Fluent Bengali
- **Clearances:** Public Trust

WORK EXPERIENCE

LS Technologies

Aug 2021 - Jun 2024

Full-Stack Engineer

Remote

- Spearheaded the development of pivotal features using ReactJS and Python for the Federal Aviation Administration's tool, consistently adhering to Agile methodologies
- Implemented a comprehensive error handling system across the website, significantly reducing bugs during product deployment by 67% and ensuring rigorous testing and debugging of the codebase
- Collaborated on the design and management of the SQL database, introducing efficient methods to access data and enhance user experience
- Revitalized the user interface of the CRRT tool by integrating Tailwind CSS, resulting in a contemporary and visually appealing web application

TappedX

Aug 2021 - Feb 2024

Full-Stack Engineer

New York, NY

- Transitioned to a contractual role, providing vital support to the Tapped team during weekends and peak periods, ensuring seamless operations and customer satisfaction
- Assisted in team management and enhanced investment opportunities by leveraging an investor network and creating compelling demos, contributing to organizational growth
- Contributed to the development of an AI-enhanced artist tool suite using OpenAI and Stable Diffusion, empowering users to advance their careers by providing innovative tools
- Developed an AI-driven image generator that transforms real-time user images into thematic visuals, enhancing creative projects like album covers
- Designed and launched four web applications for Tapped AI's tool suite, implementing a subscription payment model via Stripe, which increased user engagement and revenue

TappedX

Oct 2019 - Aug 2021

Full-Stack Engineer

Remote

- Built a user-centric companion web app using NextJS and Firebase, offering Tapped users a dynamic platform to elevate their entertainment careers
- Architected core app infrastructure, including the design of advanced features like artist booking platforms and integrated payment systems and email automation
- Collaborated on company marketing initiatives, leveraging guerrilla marketing strategies to attract and onboard artists, resulting in a notable user growth

TCC Entertainment

Sep 2017 - Oct 2019

Full-Stack Engineer

Remote

- Architected and implemented the MERN stack (MongoDB, ExpressJS, ReactJS, Node.js) to streamline entertainment management operations, enhancing the company's technical infrastructure and improving system efficiency
- Developed new features in ReactJS and NodeJS, automating daily processes and improving operational efficiency for company leadership
- Led and mentored a team of interns, driving productivity through the adoption of Agile methodologies, resulting in faster project delivery and improved team cohesion

PROJECTS

Co-Founder

New York, NY

EnterLinked

- Founded an app development organization focused on producing thoughtful, utility-based applications for daily use
- Currently leading the creation of a social entertainment media ranking app with React Native, Tailwind CSS and Expo Go, enabling users to curate personalized lists of their favorite form of media
- Pioneered system design and API structure, creating an optimized application structure that reduced costs to an average of \$3 per month and achieved instantaneous load times.
- Conceptualized and executed a user-friendly and aesthetic app interface based on user feedback

EDUCATION

Fordham University

Aug 2017 - May 2021

Bachelor of Science, Computer Science

New York, NY

Zero to Mastery Academy: Full-Stack Development

Oct 2020 - Dec 2020

Full Stack Web Development
